Subject: RE: lorazepam manufacturer

Hi Jill,
The lorazepam label said Lorazepam, Inj, USP, 1 mL, 2 mg/mL, and were carpjects. It is sold by Hospira and the NDC# is 0409-1985-30. The solution also contains polyethylene glycol 400 in propylene glycol with 2% benzyl alcohol.

- Product performance issues: 1-800-441-4100
- General information: 1-224-212-2000

PS-The fentanyl is 250 mcg/5mL so it really is 50 mcg/mL as Julie stated.

Hi Peter,

Can you take care of this for Jill? Thanks.

ELO

Subject: lorazepam manufacturer

Hi Betsy – I forgot to ask the name of the manufacturer of the Lorazepam, when we were in our mtg... Is it printed on the containers? Please forward the info if you have it, thanks...

Jill

PS: then I can check with them for an alternate quant. method...
